Now, while it does seem hard that for even an honest dollar a refined negro may not be able to accure accommodations under a roof owned by another race, yet it is simply a lesson, which to my mind, teaches that the best place for the negro, high or low, is at home among his kith and kin. Why not, then, hold this congress at Atlanta. New Orleans, or even Richmond? In either of these Southern cities homes of people of our own race in sufficient number would have been open to the delegates, and eating places for negroes exclusively would have guaranteed every one from starvation. And while it is not my desire to extenuate any crimes here committed against my people, yet, as I say, the South is outspoken—she says what she means, and means what she says—and the negro will yet learn that the South is pre-eminently his home, and the home of his truest friends. The negro belongs to the South as her bequest to civilization, and in spite of what may be said against it, the finer sensibilities of the blue-veined South-land are offering the negro industrial and economic opportunities such as no section of the North can boast of.

I conclude by saying, furthermore, that neither Denver nor the entire way to Denver to meet a few wise men from the West, and at the same time fleeing front our shedows, as it were, falls but little short of the ridiculous.
